- Activities checklist** See below. This list is not exhaustive.

Research and development	
Celebrating International Awareness Day for Avoidable Deaths on 12 March (mandatory)	
Promoting monthly accountable talks of avoidable deaths	
Promoting south-south and north-south collaboration to address the Avoidable Deaths Network's objectives	
Platform to share knowledge and raise awareness on avoidable deaths	
Capacity building of responders	
Advocacy to integrate avoidable deaths in the heart of disaster and development activities	
Promoting future leaders for avoidable deaths by engaging with graduate and post-graduate students	
Promoting junior Champions for avoidable deaths by engaging with primary and higher secondary schools	
Any other activities relevant to the country's context: The Chapter will focus on nature-based solutions for disaster risk reduction, like the conservation of cedar trees.
